**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I support broadband competition. US broadband is too expensive and too slow. Most people in the US have limited choice. In San Francisco, we have a choice and the competition to the major players offers a huge improvement in service, speed and price. I want this for everyone in the US.

Access to copperwires is necessary for sustaining competition. You can either sustain competition or nationalize the utility. If you want to have private companies, you have to have private competition.

Thanks!

Will Lowry
